Each License application must be accompanied by the required License Fee, which is set by resolution of the Board of Supervisors. A Proprietor proposing to conduct Tobacco Retailing at more than one location shall submit a separate application for each location. Every application shall contain the following information:

A. The name, address, and telephone number of each prospective Proprietor;
B. The business name, address, and telephone number of the fixed location for which the License is sought;

C. Whether or not each prospective Proprietor has previously been issued a License pursuant to this Chapter that is, or was at any time, suspended or revoked and, if so, the date of the suspension or revocation;

D. Proof that the location for which a License is sought has been issued a valid State Cigarette and Tobacco Products Retail License by the State of California Board of Equalization pursuant to the California Cigarette and Tobacco Products Licensing Act of 2003 (Cal. Bus. & Prof. Code, §§ 22970 et seq.);

E. A statement signed by each prospective Proprietor that no Drug Paraphernalia is or will be sold at the location for which the License is sought;

F. A statement signed by each prospective Proprietor that the Proprietor is informed of the laws affecting Licenses; and

G. Such other information as the County deems necessary for the administration of this Chapter.

7.80.060 - Issuance of a License.

A. Upon the receipt of a complete application for a License and the License Fee required by this Chapter, the Health Officer shall issue a License unless one (1) or more of the following grounds exists:

1. The application is incomplete or inaccurate;

2. The application seeks authorization for Tobacco Retailing at a location for which a suspension is in effect pursuant to this Chapter, for which a License has been revoked pursuant to this Chapter, or for which this Chapter otherwise prohibits issuance of Licenses;

3. The application seeks authorization for Tobacco Retailing for a prospective Proprietor for whom a suspension is in effect pursuant to this Chapter for the subject location or another location, whose License has been revoked pursuant to this Chapter for the subject location or another location, or to whom this Chapter otherwise prohibits a License to be issued;
4. The Department has information that the prospective Proprietor or his or her agent or employee has violated any local, State or Federal tobacco control law, including this Chapter, within the preceding twelve (12) months; or

5. The application seeks authorization for Tobacco Retailing that is prohibited pursuant to this Chapter, that is otherwise unlawful pursuant to this Code, or that is unlawful pursuant to any other local, State, or Federal law.

B. Any denial of an application for a License shall be in writing, setting forth the reasons for the denial and notifying the applicant for a License that the decision to deny an application for a License shall become final unless the applicant seeks an appeal pursuant to Section 7.80.130 within fourteen (14) calendar days of the date of service of the Health Officer’s decision. Service of the decision shall be provided in accordance with the service requirements set forth in Subsection A of Section 7.80.120.

C. All information required to be submitted pursuant to Section 7.80.050 in order to apply for a License shall be updated whenever the information changes. A Tobacco Retailer shall provide the Department with any updates within ten (10) business days of a change.

7.80.070 - License renewal and expiration.

A. A License is invalid unless the appropriate License Fee has been paid in full and the term of the License has not expired. The term of a License is one (1) year beginning each fiscal year on July 1st and ending on June 30th of the following year. Each Tobacco Retailer shall apply for the renewal of his or her License and submit the License Fee no later than thirty (30) calendar days prior to expiration of the term.

B. A License that is not timely renewed shall expire at the end of its term. To reinstate a License that has expired, or to renew a License not timely renewed pursuant to Subsection A of this Section, the Proprietor must:

1. Submit the License Fee; and

2. Submit a signed affidavit affirming that the Proprietor:

   a. Has not sold and will not sell any Tobacco Product or Tobacco Paraphernalia after the License expiration date and before the License is renewed; or
b. Has waited the appropriate ineligibility period established for Tobacco Retailing without a License, as set forth in Section 7.80.110, before seeking renewal of the License.

7.80.080 - License nontransferable.

A. A License may not be transferred from one Person to another or from one location to another. Whenever a Tobacco Retailing location has a change in Proprietors, a new License is required.

B. Notwithstanding any other provision of this Chapter, prior violations at a location shall continue to be counted against a location, and License ineligibility periods shall continue to apply to a location unless:

1. The location has been fully transferred to an entirely new Proprietor or fully transferred to entirely new Proprietors; and

2. The new Proprietor(s) provides the Department with clear and convincing evidence that the new Proprietor(s) has acquired or is acquiring the location in an arm’s length transaction. As used in this Section, the term "arm’s length transaction" shall mean a sale in good faith and for valuable consideration that reflects the fair market value in the open market between two informed and willing parties, neither of which is under any compulsion to participate in the transaction. A sale between relatives, related companies or partners, or a sale for which a significant purpose is avoiding the effect of the violations of this Chapter is not an arm’s length transaction.

7.80.090 - Inspections, investigations and enforcement.

A. Compliance with this Chapter shall be monitored by the Department or any law enforcement officer. Employees of the Department or a law enforcement officer may conduct compliance checks, including but not limited to youth decoy operations. Any law enforcement officer may enforce the penal provisions of this Chapter. Compliance checks may be unannounced.

B. The County shall not enforce any tobacco-related minimum age law against a person who otherwise might be in violation of such law because of the person's age (hereinafter "youth decoy") if the potential violation occurs when:

1. The youth decoy is participating in a compliance check supervised by an employee of the Department or a law enforcement officer;
2. The youth decoy is acting as an agent of a person designated by the County to monitor compliance with this Chapter;

3. The youth decoy is participating in a compliance check funded in part, either directly or indirectly through subcontracting, by the Department; or

4. The youth decoy has an immunity letter from the District Attorney’s Office.

C. Whenever evidence of a violation of this Chapter is obtained in any part through the participation of a person under the age of eighteen (18) years old, such a person shall not be required to appear or give testimony in any civil or administrative process brought to enforce this Chapter and the alleged violation shall be adjudicated based upon the sufficiency and persuasiveness of the evidence presented.

7.80.100 - Suspension or revocation of License.

A. In addition to any other remedy authorized by law, after notice and opportunity to be heard pursuant to Section 7.80.120 of this Chapter, a License may be suspended or revoked as provided in this Section if the Health Officer finds by a preponderance of the evidence that the Licensee, or any of the Licensee’s agents or employees, has:

1. Violated any of the requirements, conditions or prohibitions of this Chapter; or

2. Pledged guilty, "no contest" or its equivalent, or admitted to any of the following:

   a. The original or renewal application contained incorrect, false, or misleading information;

   b. One or more of the grounds for denial listed in Section 7.80.060 existed before the License was issued; or

   c. A Licensee is convicted of a misdemeanor or felony violation of any Federal, State, or local tobacco retailing law or regulation, including any provision of this Chapter.

B. During any period of suspension or revocation, the Licensee shall remove all Tobacco Products and Tobacco Paraphernalia from public view. Failure to do so may be considered a subsequent violation.

C. When the Health Officer finds a violation as set forth in Subsection A of this Section, the License shall be suspended or revoked as follows:
1. Upon a finding by the Health Officer of a first License violation, the License shall be suspended for sixty (60) days;

2. Upon a finding by the Health Officer of a second License violation within any sixty (60) month period, the License shall be suspended for one hundred and twenty (120) days;

3. Upon a finding by the Health Officer of a third License violation in any sixty (60) month period, the License shall be suspended for one hundred and eighty (180) days; and

4. Upon a finding by the Health Officer of a fourth License violation within any sixty (60) month period, the License shall be revoked and no new License shall issue for the location until five (5) years has passed from the date of revocation.

D. Violation by a Licensee at one location shall not be construed as a violation at another location of the same Licensee, nor shall violations by a prior Licensee at the same location be accumulated against a subsequent Licensee at the same location.

E. A License shall be revoked if the Health Officer finds that one or more of the grounds for denial of an application for a License pursuant to Section 7.80.060 existed at the time the application was made or at any time before the License was issued.

7.80.110 - Penalties for Tobacco Retailing without a License.

A. In addition to any other penalty authorized by law, if a court of competent jurisdiction determines, or the Health Officer finds after notice and opportunity to be heard pursuant to Section 7.80.120 of this Chapter, that any Person has engaged in Tobacco Retailing at a location without a valid License, either directly or through the Person’s agents or employees, the Person shall be ineligible to apply for, or to be issued, a License as follows:

1. After a first violation of this Section at a location, no new License may issue for the Person or the location (unless ownership of the business at the location has been transferred in an arm’s length transaction), until sixty (60) days have passed from the date of the violation.

2. After a second violation of this Section at a location within any sixty (60) month period, no new License may issue for the Person or the location (unless ownership of the business at the location has been transferred in an arm’s length transaction), until one hundred and eighty (180) days have passed from the date of the violation.
3. After a third or subsequent violation of this Section at a location within any sixty (60) month period, no new License may issue for the Person or the location (unless ownership of the business at the location has been transferred in an arm's length transaction), until five (5) years have passed from the date of the violation.

B. Any imposition of a penalty pursuant to this Section shall be in writing, setting forth the reasons for the imposition of a penalty and notifying the Person subject to the penalty that the decision to impose the penalty shall become final unless the Person seeks an appeal pursuant to Section 7.80.130 within fourteen (14) calendar days of the date of service of the Health Officer's decision. Service of the decision shall be provided in accordance with the service requirements set forth in Subsection A of Section 7.80.120.

7.80.120 - Health Officer decision.

A. Upon determining the existence of any of the grounds pursuant to this Chapter for the suspension or revocation of a License, or the imposition of a penalty for Tobacco Retailing without a License, the Health Officer shall issue a notice of intended decision to the applicant for a License, the Licensee, or the Person against whom the penalty for Tobacco Retailing without a License is directed. The notice shall be provided by personal service or by first class mail, postage prepaid, and shall include a copy of the affidavit or certificate of mailing.

B. The notice of intended decision shall state all the grounds upon which the revocation, suspension, or imposition of penalty is based.

C. The notice of intended decision shall specify the effective date of the action.

D. The notice of intended decision shall state that the Health Officer shall give the applicant for a License, the Licensee, or the Person against whom the penalty for Tobacco Retailing without a License is directed an opportunity to request a hearing thereon. The hearing shall be an informal hearing before the Health Officer. Following the hearing, or within a reasonable time if no hearing is requested, the Health Officer shall issue a decision and serve the decision in accordance with the service requirements set forth in Subsection A of this Section.

E. The decision of the Health Officer shall be in writing, setting forth the reasons for the decision, and shall advise the applicant for a License, the Licensee, or the Person against whom the penalty for Tobacco Retailing without a License is directed that the decision to suspend or revoke the License,
or to impose the penalty for Tobacco Retailing without a License shall become final unless the applicant for a License, the Licensee, or the Person against whom the penalty for Tobacco Retailing without a License is directed seeks an appeal pursuant to Section 7.80.130.

7.80.130 - Appeal procedures.

With regard to any denial of an application for a License pursuant to Section 7.80.060 or any decision issued by the Health Officer pursuant to Section 7.80.120, the following rules apply:

A. A decision of the Health Officer to deny an application for a License, to suspend or revoke a License, or to impose a penalty for Tobacco Retailing can be appealed to a hearing officer, subject to the following requirements and procedures. A Person served with a decision issued pursuant to Subsection B of Section 7.80.060 or Subsection D of Section 7.80.120 may seek an appeal by filing with the Health Officer a written request for hearing within fourteen (14) calendar days of service of the decision. Failure to timely file a written request for hearing shall be deemed a waiver of the right to challenge the decision of the Health Officer and a failure to exhaust administrative remedies. The hearing officers shall be individuals selected by the County who may hear the appeals, issue subpoenas, receive evidence to administer oaths, rule on questions of law and the admissibility of evidence, prepare a record of the proceedings, and issue orders with regard to an appeal.

B. The hearing officer shall schedule a hearing.

1. Written notice of the time, date and location of a hearing before the hearing officer shall be given by personal service or by first class mail, postage prepaid, including a copy of the affidavit or certificate of mailing, to the appellant.

2. Hearing Procedures.

a. Requirements for Taking Testimony. In any proceeding before a hearing officer, oral testimony offered as evidence shall be taken only on oath or affirmation, and the hearing officer, his/her clerk, or other designee shall have the power to administer oaths and affirmations and to certify to official acts. Oaths of witnesses may be given individually or en masse. Witnesses shall be asked to raise their right hands and to swear or affirm that the testimony they shall give will be the truth, the whole truth, and nothing but the truth.
b. Continuances. The hearing officer may continue the hearing as determined appropriate by the hearing officer.

c. Administrative Interpretations. In conducting the hearing, the hearing officer shall consider the previously established interpretation of an ordinance provision by the Department charged with its enforcement unless that interpretation is shown to be clearly erroneous or unauthorized.

d. Hearing Officer Decisions. Within thirty (30) calendar days after the close of the hearing, the hearing officer shall issue a written decision, including a statement of the basis for the decision. The hearing officer’s written decision shall constitute the final administrative decision of the County.

e. In the event a civil action is initiated to obtain enforcement of the decision of the hearing officer, and judgment is entered to enforce the decision, the Person against whom the order of enforcement has been entered shall be liable to pay the County’s total costs of enforcement, including reasonable attorney’s fees.

C. The appellant's failure to appear at the hearing on appeal shall constitute an abandonment of the review request and a failure to exhaust administrative remedies.

7.80.140 - Other Penalties.

The remedies provided by this Chapter are cumulative and in addition to any other remedies available at law or in equity.

A. Violations of this Chapter may, in the discretion of the District Attorney, be prosecuted as infractions or misdemeanors.

B. Causing, permitting, aiding, abetting, or concealing a violation of any provision of this Chapter shall constitute a violation.

C. Violations of this Chapter are hereby declared to be public nuisances.

7.80.150 - Stipulated fine in lieu of hearing.

For a first or second alleged violation of this Chapter within any sixty (60) month period, the Health Officer may allow a TobaccoRetailer alleged to have violated this Chapter to stipulate in writing to the penalties provided in this Section in lieu of the penalties that would otherwise apply pursuant to this
Chapter and to forego any right the Tobacco Retailer may have to a hearing pursuant to Section 7.80.130. Notice of any stipulation shall be provided to the Sheriff’s Office, and no hearing shall be held. Stipulations shall not be confidential, shall be in writing, and shall contain the following terms plus any other noncriminal provisions established by the Health Officer in the interests of justice:

A. After a first alleged violation of the Chapter at a location:

4. An agreement that the first alleged violation of the Chapter at the location shall be considered in determining the penalty for any future violation.

B. After a second alleged violation of the Chapter at a location within any sixty (60) month period:

1. An agreement by the Tobacco Retailer to stop acting as a Tobacco Retailer for ten (10) days;

2. An administrative penalty of Five Thousand and no/100ths ($5,000.00) Dollars;

3. An admission by the Tobacco Retailer that the second alleged violation of the Chapter at the location occurred; and

Integrated Pest Management Procedures and Guidelines

ANALYSIS

City Properties

The City of Pacific Grove maintains:

- More than 25 acres of community and neighborhood parks and athletic fields;
- More than 50 acres of public right-of-way, including street medians and parkways;
- 7,394 City-maintained trees, 623 planting areas trees; and
- Nearly 200,000 square feet of facilities.

Background

Historically, the City and its agents have applied pesticides, herbicides, and Kaput Ground Squirrel Bait to control the following in or on City properties:

1. Broadleaf and grassy weeds in turf, hardscapes, undeveloped rights-of-way, bike trail edges, tree well and planter areas;
2. Rodents;
3. Insects in trees, planters, and buildings; and
4. Soil pathogens/fungi and termites. Pests controlled in interior facilities include ants, spiders, rodents, and roaches.

Purpose

The purpose of these procedures and guidelines is to provide the City of Pacific Grove, its employees, and contractors with an overview of integrated pest management (IPM) principles, procedures, and guidelines for implementing those principles. It is expected that these procedures and guidelines will ensure that all City operations and contracted services that manage pests or vegetation on City property do so in an environmentally sensitive manner while addressing public health, safety, economic, and aesthetics requirements.

The goals of these guidelines are to:

1) Create awareness among City staff and citizens of integrated pest management techniques and environmental stewardship.
2) Provide a means of educating all City departments to practice the most appropriate approach to managing pests on City property.
3) Reduce and eliminate pesticides and herbicides that pose known significant human or animal health, or environmental risks.
4) Establish a program where pesticides and herbicides categorized as toxic or persistent are used only when a pest is deemed a threat to public health, safety, the environment, or to prevent economic damage (emergency or exception) and only after other alternatives have been attempted and are ineffective. If pesticides and herbicides are used, provide guidelines on safe storage, handling, use, and application.
5) Promote the use of non-hazardous or reduced risk alternatives that are protective of human and animal health and the environment.
Guidelines

In carrying out its pest management operations, the City of Pacific Grove shall focus on long-term prevention or suppression of pest problems with minimum negative impact on human health, non-target organisms, and the environment. To this end, preference shall be given to reasonably available non-pesticide alternatives when considering the use of pesticides and herbicides on City property. Consideration will also be given to evolving rodent birth control technology for uses in pest control. However, moderation of organic alternatives will also be observed as to not introduce or substitute one environmental issue for another since the excess use of organics also comes with negative side effects.

When possible, City staff must employ non-chemical management tactics first.

Pesticides and herbicides shall be applied by a qualified applicator that has been trained in application methods. Applicators should be versed in techniques, safety precautions, pest biology, proper use of personal protective equipment, proper storage, handling, environmental concerns, employee rights regarding pesticide, Department of Pesticide Regulation, State, and Monterey County guidelines.

Pesticides and Herbicides Use

Pesticides and herbicides will be used only in authorized situations where other alternative methods have proven not to be effective or feasible (e.g., cannot be sustained due to budgetary or other constraints). The following general and specific practices shall be followed:

General

1. When used, those pesticides and herbicides with the least toxicity to humans and the environment shall be applied. No Category 1 pesticides and herbicides shall be used within the city limits except with the specific pre-authorization of the City of Pacific Grove Department Directors or designee to protect the health or safety of the public.
2. Prior approval of a Supervisor, IPM Coordinator or their designee is required for all applications.
3. Applications shall be performed by or under the supervision of a qualified applicator to avoid any hazard to any person or animal in the area or adjacent areas and to avoid any property damage.
4. Application(s) shall be made at the time of the treatment of weeds’ most susceptible stage.
5. Care shall be observed not to damage non-targeted vegetation, especially when applying a non-selective herbicide.
6. Spraying shall be confined to target species and drift must be avoided.

Specifics

No pesticides and herbicides are to be applied within 50 yards of any designated playground or adjacent to Pacific Grove Unified School District, (PGUSD) properties unless conditions call for control of a hazardous or noxious pest or weeds. In this case, the area would be closed until re-entry is deemed safe.

No pesticides and herbicides shall be sprayed when weather conditions are:

- More than 5 miles per hour winds
- Damp or foggy
- Rainy
- Extremely cold or hot

Pesticides and Herbicides Training

Person(s) applying pesticides and herbicides that are not licensed must have pesticide safety training before the use of each pesticide, regardless of toxicity. Training must be updated annually. A record must be made of each employee applying pesticides and herbicides, and evidence of training certified by the trainer/supervisor. Copies of the record form will be kept by the employee and the City department, and be available to local and State officials.
Training requirements

Training must be performed by a qualified person and cover the following for each pesticide handled:

1. Information on the pesticide label concerning human health effects.
2. Hazards of the pesticide, including acute and long-term effects.
3. Pesticide poisoning symptoms and routes pesticides and herbicides can enter the body.
4. Emergency first aid and how to get emergency medical care.
5. Routine and emergency decontamination procedures.
6. Need for, limitations, use, and cleaning of personal protective equipment (PPE).
7. Prevention, recognition and first aid for heat-related illnesses.
8. Safe procedures for handling pesticides and herbicides, including engineering controls.
9. Environmental concerns, such as drift and runoff and stormwater quality impacts.
10. Warnings against taking pesticides and herbicides home.
11. Regulatory requirements, including Material Safety Data Sheets (MSDS) and Pesticide Safety Information Series (PSIS).
12. Purpose and requirements of medical supervision, when applicable.
13. Location of hazard communication information.
14. Employee rights.

Personal Protective Equipment (PPE)

The City of Pacific Grove will provide personal protective clothing and equipment to City personnel engaged in the application of pesticides and herbicides on City of Pacific Grove property as stated on the manufacturer’s label. Contractors are required to provide their own PPE.

Documents Required While Applying Pesticides and Herbicides

Any person applying a pesticide on City of Pacific Grove property must have in their possession the following documents:

- Pesticide label
- Pesticide MSDS, (Material Safety Data Sheet)
- Medical Emergency Contact Information

Reporting of Pesticides and Herbicides Use

At the end of each month, each Crew Supervisor will complete a Monthly Chemical Use Report form and return it to the IPM Coordinator or designee. The City of Pacific Grove must then complete a Monthly Summary Pesticide Use Report by the tenth of each month.

Storage and Disposal

All pesticide storage locations must be posted with visible warning notices legible from a distance of 25 feet from any direction in English and Spanish. Any pesticide containers holding 1 gallon or less of concentrate and 3-gallon backpack sprayers with diluted pesticides and herbicides must be transported outside of the vehicle cab in a manner that will prevent spillage onto the vehicle or off the vehicle.

Empty pesticide containers, other than bags, must be rinsed and drained into the spraying equipment on site by the user, at the time of use, using the triple rinse method. Rinse solution should be applied to the treated areas.

All pesticide containers must be labeled with the following information:

- Name of pesticide
- Category of pesticide
- EPA registration number
- Active ingredient
- Entity
Small spills of pesticides and herbicides should be cleaned up immediately with absorbent material such as cat litter. For major toxic pesticide spills, contact Public Works and request Emergency Response Personnel. Note what pesticide it is, category, and if it is threatening to enter the storm drain system.

Violation Documentation

An employee of the City of Pacific Grove who has been trained to apply pesticides and herbicides may be required to do so as part of their regular duties. Those who possess Qualified Applicator Certificates (QAC) from the California Department of Pesticide Regulation (DPR) are subject to discipline by the DPR via the Monterey County Agricultural Commissioner if they violate various DPR regulations such as improper safety gear, improper posting as well as other items. Those employees will also be subjected to the City of Pacific Grove Personnel Rules and Regulations as outlined below. Contractors hired by the City of Pacific Grove should follow discipline procedure according to City of Pacific Grove maintenance contract and the IPM procedures and guidelines. Those employees who do not possess a Qualified Applicator Certificate will be reprimanded by the City of Pacific Grove if they violate DPR regulations. The disciplinary actions for violations are to be determined.

Procedure

1. Consider the potential pest treatments and determine appropriate treatment during ongoing maintenance.
   1.1 In consultation with the IPM coordinator, the field supervisor shall determine the most effective treatment time, based on pest biology and other variables, such as weather and local conditions.
   1.2 Landscaping practices, including watering, mulching, waste management, and food storage must be taken into consideration by staff before applying any pesticide.
   1.3 When possible, pest ecosystems must be modified by staff to reduce food and living space.
   1.4 Staff should use physical or mechanical controls such as hand-weeding, traps, and barriers when possible.
   1.5 Staff should use biological controls, including introducing or enhancing pests' natural enemies.

   2.1 Notify your crew supervisor of possible need for pest control at the site.
   2.2 Send the completed Pesticide Application form via email to the IPM coordinator before the proposed pesticide application, ideally the afternoon before the scheduled day of application.
   2.3 Gather all personal protective equipment (PPE), documents, and signage required to complete the specific pesticide application and have all of these items in your possession during the application.
   2.4 Apply pesticide and do not leave site unattended until spray has dried.
   2.5 Document pesticide usage.
   2.6 Complete the Monthly Chemical Use Report by the last calendar day of the month and turn into the IPM Coordinator or designee before or by the 7th of the following month.
   2.7 City of Pacific Grove IPM Coordinator or designee must complete and submit the Monthly Summary Pesticide Use Report to the County Agricultural Commissioner’s Office within the first ten days of the following month.
   2.8 All City of Pacific Grove contractors shall follow the pesticide application procedure defined in the Contractor Maintenance Contract.

3. Conduct ongoing training programs.

4. The IPM coordinator and department supervisors trained in pest control shall train staff in pest biology, the IPM approach, new pest management strategies as they become known, and toxicology of pesticides and herbicides proposed for use.

5. Conduct ongoing public outreach and education.

   5.1. The IPM coordinator shall inform the public of the City's procedures and guidelines to reduce pesticide use and respond to questions from the public about the City's pest management practices.

6. When planning new projects or renovating existing areas, the design must be reviewed by the IPM coordinator and staff overseeing both the initial design and future maintenance to assure that pest habitat are eliminated or reduced. This process will result in a more sustainable design.
Integrated Pest Management Coordinator

The IPM Coordinator shall be responsible for:

1. Coordinating efforts to adopt IPM techniques for the City of Pacific Grove.
2. Communicating with appropriate staff on the goals and guidelines of the program.
3. Providing training to Parks and General Services, Public Works and other City staff in the requirements of this IPM procedures and guidelines as well as preparing individuals who handle pesticides and herbicides in obtaining a QAC.
4. Facilitating meetings with the City’s commissions and City Council.
5. Tracking all pesticide use and ensuring that the information is available to the public.

GLOSSARY

Area of Special Biological Significance, (ASBS) - The Pacific Grove Area of Special Biological Significance (ASBS) is 3.2 miles of Pacific Grove coastline west from the Monterey Bay Aquarium to Asilomar Boulevard just before Point Pinos. ASBS are a subset of state water quality protection areas in the ocean along California’s coast that require special protection per the California Marine Managed Areas Improvement Act. Their protection is promulgated by State Water Resources Control Board (SWRCB) through the California Ocean Plan (Ocean Plan). The Ocean Plan prohibits the discharge of waste to designated ASBS.

Accordingly, on March 20, 2012, SWRCB adopted a General Exception to the Ocean Plan waste discharge prohibition in relation to the ASBS. The General Exception, which is described in SWRCB Resolution No. 2012-0012 and amended by Resolution No. 2012-0031, governs point and non-point source waste discharges to California’s ASBS, which include municipal storm water discharges. The Pacific Grove ASBS is covered under this exemption.

Biological control – This method uses biological technologies to manage unwanted pests. Examples of this type of control include, but would not be limited to, the use of pheromone traps for the management of Indian meal moth in food storage/preparation areas, or beneficial insect release for control of certain types of weeds or invasive insects in landscapes.

Category 1- The four toxicity categories, from one to four are:

- Toxicity category I is highly toxic and severely irritating,
- Toxicity category II is moderately toxic and moderately irritating,
- Toxicity category III is slightly toxic and slightly irritating,
- Toxicity category IV is practically non-toxic and not an irritant.

Contract- A binding written agreement between two parties. Contracts entered into the pesticide realm are generally for goods or services.

Contractor- A person, firm, corporation, or other entity, including a governmental entity, that enters into a contract.

Cultural control - Is the practice of modifying the growing environment to reduce the prevalence of unwanted pests. Examples include irrigation practices, improved and reduced fertilization applications, proper mowing practices that include mulching, and regular aeration to improve the soil.

DPR - Department of Pesticide Regulations for the State of California’s Environmental Protection Agency. DPR, in partnership with Federal EPA and County Department of Agriculture, oversees all issues regarding the registration, licensing and enforcement of laws and regulations about pesticides and herbicides.
Emergency- A pest outbreak that poses an immediate threat to public health or significant economic or environmental damage.

Environmental Stewardship - The strategic approach to pest management in which the IPM practitioners find balance in preserving the natural integrity and health of the environment, promoting public safety and maintaining functional utilities while recommending or applying pest management methods. Environmental Stewardship philosophy helps to create awareness of Best Management Practices and their relationship the healthy environment while conducting pest management activities.

EPA- The United States Environmental Protection Agency

Exemption- A process by which materials not on the approved materials list, can temporarily be used, but only after all alternatives have been reviewed, evaluated, and or implemented and only after the IPM Coordinator has authorized the use of the pesticide for the specified purpose. Exemptions may be one-time or programmatic, and the decision to approve an exemption will be based upon an evaluation of the failure or success of alternatives and take into consideration public health, environmental, and financial risks.

IPM Coordinator- An individual who is tasked with the function to administer the IPM program for a project or the City of Pacific Grove.

Integrated Pest Management (IPM) - A decision-making process for managing pests that use monitoring to determine pest levels, tolerance thresholds, combines biological, cultural, physical, chemical tools to minimize health, environmental, and financial risks. The method uses extensive knowledge about pests, such as infestation thresholds, life histories, environmental requirements, and natural enemies to compliment and facilitate biological and other natural control of pests.

Landscapes- Grounds that are actively managed such as parks, plantings, lawns around public buildings, right-of-ways, watersheds, and open space, etc., excluding large tracts of forestland.

Mechanical controls – The use of IPM control methods utilizing hand labor or equipment such as mowers, graders, weed-eaters, and chainsaws. Crack and crevice sealants and closing small entryways (e.g., around pipes and conduits) into buildings for insect and rodent management would also be mechanical methods.

Monarch Butterfly Sanctuary - The Pacific Grove Monarch Sanctuary is merely one of approximately 400 overwintering sites along the California coast. Monarchs cluster in the eucalyptus trees at the Sanctuary. The sanctuary is a Pacific Grove municipal park and is freely open from sunrise to sunset.

Nurse Tanks- Commonly used to transport various agricultural chemicals and liquids to the point of application.

PCA – PCA or Pest Control Advisor is one licensed by the California Department of Pesticide Regulations according to Title 3, Article 5 of the California Code of Regulations. Only a licensed PCA, who is registered with the County Agricultural Commissioner may provide written pest control recommendations for agricultural pest management, including parks, cemeteries, golf courses, and rights-of-way.

Pesticide- Any substance, or a mixture of substances, used for defoliating plants, regulating plant growth, or for preventing, destroying, repelling, or mitigating any pest, which may be detrimental to vegetation, humans, animals or structures.

QAC - Qualified Applicators Certificate is a certified applicator of pesticides and herbicides according to Title 3, Article 3 of the California Code of Regulations. Applications may include residential, industrial, institutional, landscape, and rights-of-way sites.

Sustainable Design, Construction, and Maintenance- Principles, materials, and techniques that conserve natural resources and improve environmental quality throughout the lifecycle of the landscape and its surrounding environment. Sustainable designs for buildings and landscapes incorporate methods that reduce the potential for pest problems from the start and with long-term maintenance needs in mind.
