         A. Commissioner Petersen attended the TMC Bike and Pedestrian Committee meeting on May 1, 2019:
            We received a presentation regarding the Caltrans District 5 Active Transportation Plan:
            District 5 Caltrans Active Transportation Plan is identifying bicycle and pedestrian needs and improvements on, across, and parallel to the State Highway System thru-out CA’s Central Coast. Partnership with transportation stakeholders and the public are critical to supporting a safe transportation network.
District 5 covers the central coast region of the state including Monterey, Santa Cruz, San Benito, San Luis, and Santa Barbara Counties. The website is up and it is called Mindmixer. The website address is: https://bikewalkcentralcoast.mindmixer.com/.

They are reaching out to the different communities and looking to answer the questions posted online and would love more input from Monterey County. Active transportation needs and existing network gaps that surface from this data collection and community input will inform priority bicycle and pedestrian improvements and recommendations in the district.

B. Traffic Engineer Mr. Silva gave an overview of the upcoming Public Works projects: 1.) The repaving of Congress from Sunset to David has been awarded and will begin right after the US Open, 2.) The RFP is out for bids for repair of cracks and slurry-sealing of the roads, 3.) The Pine Ave Pedestrian Improvement Project contract will be awarded in June.
