Core Revenue Report
October 2021

The following tables include the FY21/22 budget and year to date revenues. The receipts represent funds received to date.

PROPERTY TAX

Property Tax is the first largest source of the General Fund revenue. The City typically receives property tax payments in December, April, and June. Unlike other tax revenues, property taxes were not impacted by COVID-19. The City will receive its first two property tax payments for FY21/22 in December 2021 and April 2022, with an additional minor payment to be received in June 2022. The following table presents FY21/22 budget, and revenues received to date.

Property Tax	Amended Budget	YTD Receipts	% of Amended Budget
FY21/22	8,418,000	-	0.0%

TRANSIENT OCCUPANCY TAX (TOT)

Transient Occupancy Tax (TOT) is the General Fund's second largest source of revenue which the City receives on a monthly basis. Unlike property taxes, TOT has been significantly impacted by COVID-19. The following table presents FY21/22 budget and revenues received to date.

Transient Occupancy Tax	Amended Budget	YTD Receipts	% of Amended Budget
FY21/22	4,703,000	1,982,182	42.1%

The City receives transient occupancy tax in the month following the stay. The revenues received in October is for September TOT Revenue.

The following table shows a monthly breakdown of TOT revenues when compared to the same month last year. The reduction in the 2020/21 TOT in December and January may have resulted from temporary COVID-19 restrictions. Also noted is the decline in the March 2019/20 TOT, due to COVID-19 pandemic.

SALES AND USE TAX

Sales and Use tax is the third largest source of the City's General Fund revenues. The City receives a 1% Bradley Burns Tax and a 1% Measure U Transactions and Use Tax.

The impact of COVID-19 on the Sales and Use tax revenues has been less significant when compared to TOT. The following table presents FY21/22 budget and revenues received to date.

Sales and Use Tax	Amended Budget	YTD Receipts	% of Amended Budget
FY21/22	4,109,000	810,344	19.7%

In FY19/20, the City received sales tax monthly; however, two payments were advances, which were based on estimated sales, prior period tax receipts, adjustments, and current distributions. This was followed by a true-up within each quarter. Due to this methodology, the advance monthly tax contributions were not truly representative of actual performance.

In FY20/21, the State changed its tax collection methodology. The State now calculates a factor for each agency based on how the agency's sales tax performed last year to the statewide total, and then applies that factor to the total statewide prepayments they received for that month. If statewide prepayments are tracking higher than the agency's local sales, this could inflate the two advances. Additionally, the higher advances could also represent audit cases or late payments that they also processed during that month. This new methodology contributes to higher advance payments, with a lower true-up amount.

The impact of COVID-19 on the Sales and Use tax revenues has been less significant when compared to TOT. The following table presents FY21/22 budget and revenues received to date.

Tax Return Period	2019/20	2020/21	2021/22	Net Difference
