Description	Speer Gold Dot features nickel plated brass cases and Boxer primers and is a non-corrosive round. The Gold Dot projectile goes through a process of joining the jacket and core one molecule at a time which eradicates the potential for the leading cause of bullet failure (jacket/core separation). Gold Dot rifle ammunition asserts remarkable accuracy with exact tolerances and unparalleled bullet uniformity.
Quantity	1,500
Capabilities	Operational range 0-300 yards
Expected lifespan	10 years
Manufacturer's description	SPEER LE® Gold Dot® Duty Rifle brings proven bullet technology to rifle platform. The Gold Dot® bullet was the first high performance, bonded-core bullet available in handgun ammunition, and has since set the bar for duty ammunition. The nation's number one law enforcement option is now available in rifle ammunition for agencies everywhere. These specially designed loads bring law enforcement rifle ammunition to the next level. Gold Dot rifle bullets are optimized to ensure expansion out of barrels down to 10" at a wide variety of velocities out to 200 yards. This kind of performance greatly increases the capabilities of duty rifles and gives law enforcement personnel a distinct advantage when it matters most. In addition, these new loads boast outstanding feeding in short, very short and standard-length AR platforms. Like their handgun counterparts, the Gold Dot rifle bullets are constructed using Gold Dot technology. The process of joining the jacket and core one molecule at a time eliminates the potential for the leading cause of bullet failure—jacket/core separation.
